LUNA CATAMARANS

At Luna Catamaran we are bringing together renown boat building talent from around the world to create innovative new designs that provide a new level of comfort, luxury, and performance.

We are focused on crafting boats with the latest technology and the highest quality and craftsmanship. Something that is often missing in the mass produced boat building industry.

Our catamarans has a modern unique line, good sailing performance and are eco friendly.

The Luna Catamarans boatyards is located in Croatia, in beautiful town Split, where with the most experienced craftsmen we work to bring your dreams to reality.

Dariusz Gajewski
Founder

LUNA 47

- The sweet spot of the LUNA 47 will be between 5 and 15 kts true wind. The owner will be able to reach windspeed with no effort.
- Interior is light and elegant with a house-like feeling. The layout can fit the owner desires or the charter market.
- Hybrid propulsion delivers many advantages. When sailing, the recuperation mode will restore enough energy, to motor to a bay or harbour and stay there for couple days without needing the generator.
- LUNA 47 is built using infusion technology with the best materials. The result is a light and stiff boat with a great lifespan and resale value.
- LUNA 47 with her new visual identity, new rig and hull design, offers increased performance combined with a unique signature.

LUNA 47

CONCEPT

LUNA 47 is not only another cruising catamaran. LUNA 47 is a boat that distinguishes from most of the markets choices.

LUNA 47 is not only fast, but at the same time quiet. It is not only accommodate their guests, but offer comfort in a designed shell.

The difference is made by a holistic concept. LUNA 47 has been designed firstly for Diesel-Electric propulsion: balanced, quiet, eco-friendly. Recuperation, regeneration allow an average use without any generator noise, but with the amenities of modern life. All sailing can be done single handed.

LUNA 47 has put together, what todays technics and hydrodynamics deliver: living in comfort and eco-friendly; and sailing is on the fast side! Speed is not just for fun, it is also for safety. Having a real sailboat, that can sail upwind and is seaworthy is an important safety feature: escape a storm, reach the harbor of your choice and the behavior of the boat in sea state will be more comfortable.
